

Organic Apparel & Accessories

WINNER:
**ECO-COTTON FLEECE HOODIE
(ECO6077)**

Supplier: Boardroom Custom Clothing
(asi/40705)

The Eco-Cotton Hoodie adds a new twist to the traditional with raw, reverse seam accents and wide cuff and waistband details. Since it's made from recycled cotton, this easy-care fabric features a distinctive texture in a heathered, uneven color. "This fabric is actually one of the most environmentally-friendly fabrics that we've come across. It's made in the USA, so it doesn't have a big carbon footprint, and the recycling process that it is made from does not use any water or dyes," says Jay Neve, communication designer for Boardroom Custom Clothing. Perfect for the casual end-user, you can recommend that this distressed full-zip hoodie be paired with some trendy wide leg jeans and Converse sneakers. RSN #154

FINALIST:
